

<b>Section A. Facility Data</b>	
Facility No.	Building 664 and T664A
Facility Descriptor:	B664 - Waste Storage, preparation, staging, and shipping facility T664A - General office trailer
Project:	RISS
Date of Demolition:	T664A - 10/28/04 and B664 - 10/30/04
Additional Information:	(Must include information on environmental releases and conditions of site at turnover to Environmental Restoration)

<b>Section B. Final Characterization Data</b>	
Reconnaissance Level Characterization Report (concurrence received)	Reconnaissance Level Characterization Report (RLCR) for Building 664 and T664A - Concurrence from Steven Gunderson to Joe Legare on October 27, 2004 IA-002427
In-process Characterization	N/A
Pre-Demolition Survey Report (approval received)	RLC functioned as PDS
Post-Demolition Survey Report (as necessary)	N/A

<b>Section C. Waste Data (complete categories as appropriate)</b>	
<b>Sanitary Disposal</b>	
Disposal Site:	BFI Foothills Landfill, Golden CO
Waste Volume (yd <sup>3</sup> ):	7330
Waste Weight (tons):	3997.3
Additional Information:	Building debris
<b>Hazardous Disposal</b>	
Disposal Site:	Kettleman Hills Facility, Kettleman City, CA
Waste Volume (yd <sup>3</sup> ):	Approximately 60 cubic yards (46,544 lbs)
Additional Information:	Three rollofs of lead shielding (D008) from a High Contamination Area that could not be recycled, and one drum of crushed light bulbs (D009).
<b>TSCA Waste Disposal</b>	
Disposal Site:	N/A
Waste Volume (m <sup>3</sup> ):	N/A
Additional Information:	
<b>Asbestos Waste Disposal</b>	
Disposal Site:	N/A
Waste Volume (m <sup>3</sup> ):	N/A
Additional Information:	
<b>Low-Level Waste Disposal</b>	
Disposal Site:	N/A
Waste Volume (m <sup>3</sup> ):	N/A
Additional Information:	
<b>Low-Level Mixed Waste Disposal</b>	
Disposal Site:	N/A
Waste Volume (m <sup>3</sup> ):	N/A
Additional Information:	
<b>Recycled Material</b>	
Recycle Facility:	N/A
Waste Volume (m <sup>3</sup> ):	N/A
Additional Information:	
<b>Property Disposition</b>	
Receiver Locations (major items only):	N/A
Volume (m <sup>3</sup> ):	
Weight (tons):	
Additional Information:

Date**Additional Facility Information**

Building 664 was an approximately 18,700 square foot building constructed in 1972. The structure was a pre-fabricated metal building built on a concrete foundation. The exterior walls were constructed of insulated metal panels attached to a steel frame. The roof was constructed of metal decking with built-up roofing.

Building 664 had the following utilities: electrical, plant water, plant sanitary, plant steam, and fire protection was provided by an overhead sprinkler system and wall mounted fire extinguishers.

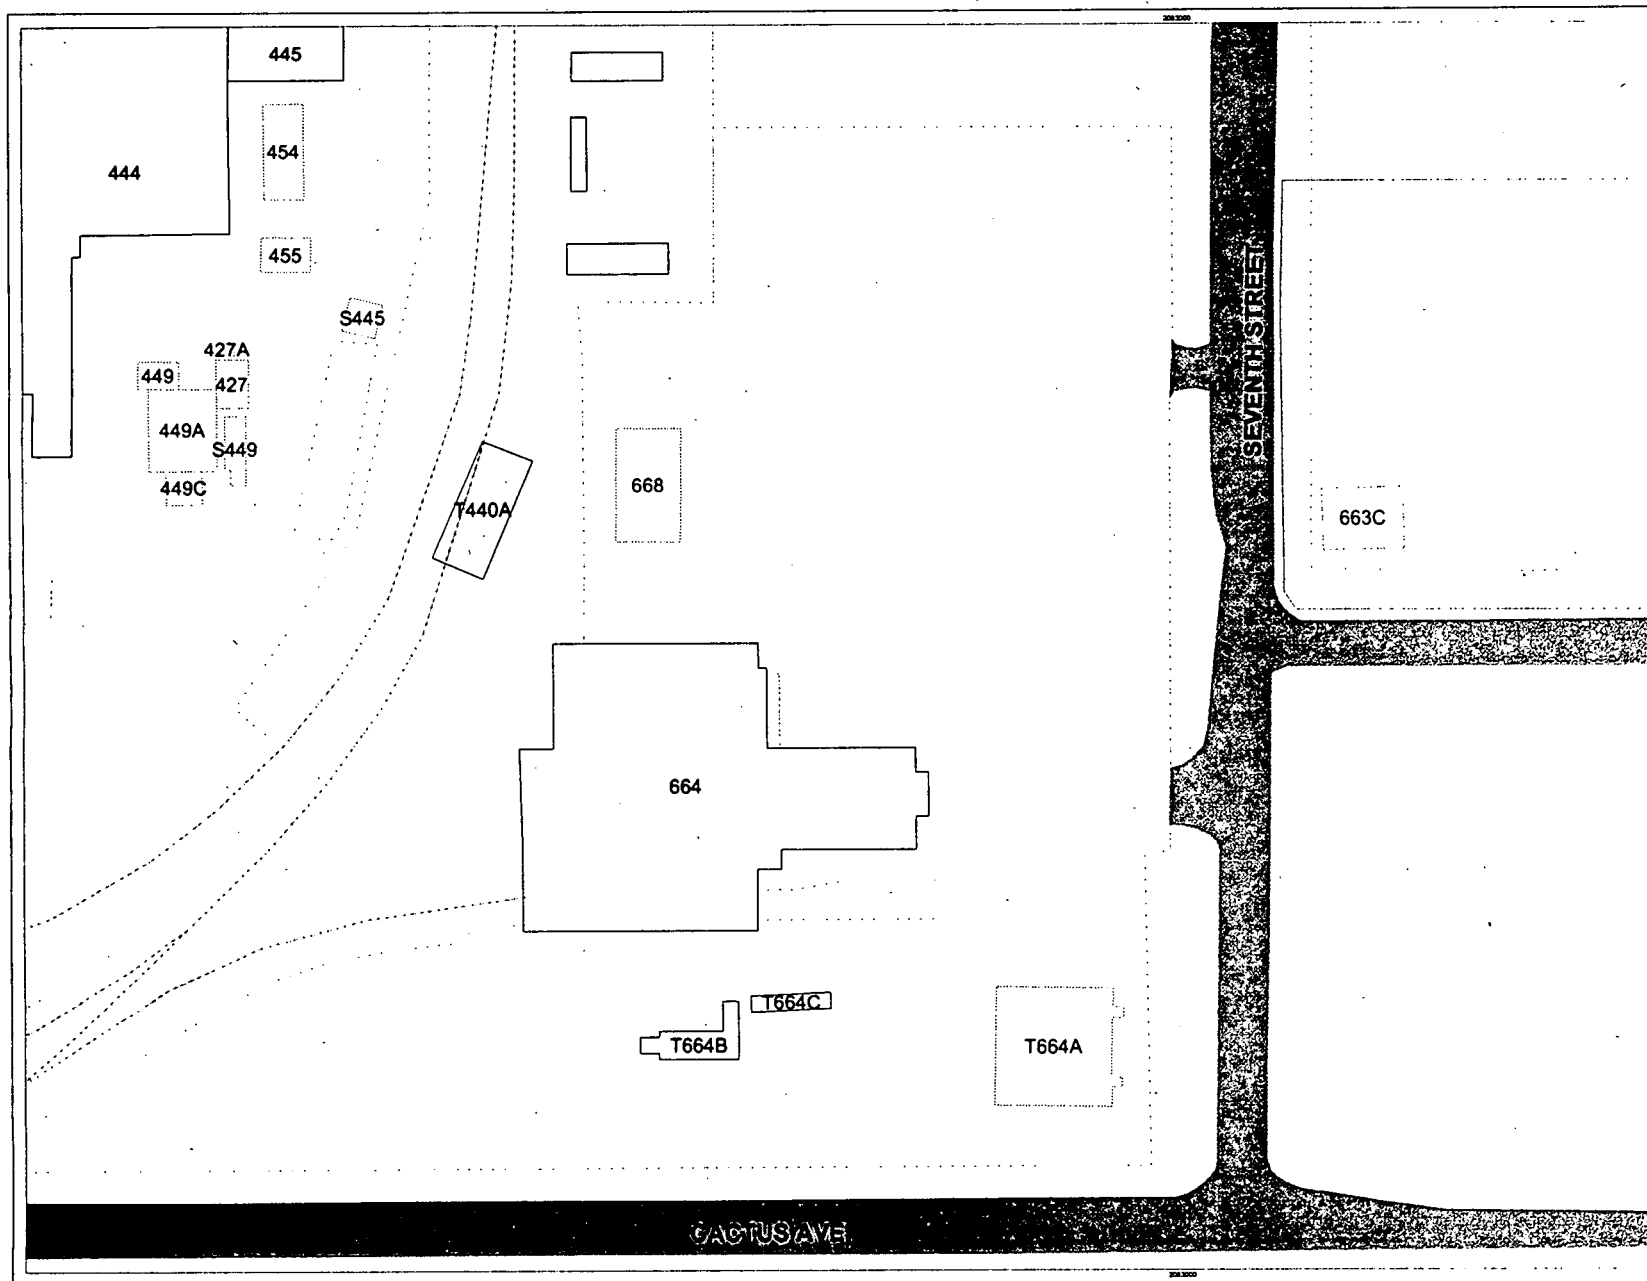

Building 664 contained RCRA Container Storage Unit 20, which was closed in accordance with the Closure Description Document submitted August 3, 2004. CDPHE acceptance of the closure summary report was received on November 8, 2004.

Trailer T664A was a 4,392 square foot general office trailer acquired in 1991. This trailer had corrugated metal siding with corrugated metal skirting. The entrances had wooden stairs leading to a wooded enclosure. The interiors were primarily a cubical layout, but had several hard-walled offices, conference rooms, and rest rooms. Interior walls were wallboard, the ceiling was a drop ceiling with acoustical tiles and recessed lights. The floors were primarily covered with carpet except in the bathrooms, which were covered with vinyl tile.

Trailer T664A had the following utilities: electrical, plant water, plant sanitary, and fire protection was provided by an overhead sprinkler system and wall mounted fire extinguishers.

The entire B664 and T664A structures were removed during D&D activities, and sent offsite for disposal. The utilities were disconnected and removed to at least three feet below final grade as indicated on the attached map. There are no remaining structural components, utility lines, or parts of the foundation. The buildings are not in an IHSS or PAC therefore no soil sampling is required.
